## MOUNT CLARE MURMURINGS

Events of the Community Are Set Down by a Telegram Correspondent.

**MT. CLARE, May 22.**—The funeral services over the body of the late and venerable D. F. Morgan in the Methodist Protestant church a recent afternoon was attended by a large concourse of friends and relatives from far and near who came to pay their last tribute of respect to

the aged citizen. Mr. Morgan was in the eighty-second year of his age, and had spent the most of his life in the vicinity of Lost Creek and Mt. Clare. The obsequies were conducted by his pastor, the Rev. S. J. Satterfield and ably assisted by the Rev. H. B. Worwman of the Methodist Episcopal church. His body was laid to rest in the Sheets cemetery on Lost creek. Among those who attended from a distance were Col. James Bassel and Mr. and Mrs. Blair of Weston; J. V. Blair of West Union; William Blair of Clarksburg; Mr. and Mrs. J. G. Jackson and Mrs. Mary Bassel of Jane Lew.

Several Mt. Clare people attended the Knights Templar convocation at Clarksburg Wednesday and Thursday.

Mrs. W. P. Weekly accompanied the Grand Army of the Republic of Clarksburg to the state encampment at Slatersville this week.

W. M. Morris went to Salem Friday and on his return stopped off to hear Candidate "Abe" Lilly speak at the court house in Clarksburg in the evening.

While a prominent Mt. Clare woman was gathering some rhubarb in the edge of her garden recently she was heard to scream in terror and cry out, "Come quick! a big snake." Whereupon two neighbor men ran to her assistance, one armed with a hoe and the other with a club. Peering into the weeds they saw the form of the supposed reptile lying perfectly quiet. A hard blow with the hoe revealed his snakeship to be a piece of inch rubber hose about six feet long, which did very much resemble a large snake after turning gray with age.

## FAMED GERMAN FOKKER BROUGHT DOWN WITHIN FRENCH LINES

French officers examining German Fokker aeroplane brought down within their lines.

This is indeed a "find" for the French officers who will examine closely all the details and construction of the machine and profit thereby. The German Fokker is a speedy machine and can rise from the ground more quickly than any of the aeroplanes used by the allies on the western front.

## TEDDY'S FAVORITE WORD NOW HURLED

Back in His Teeth by a Leading German Newspaper Published in Chicago.

**CHICAGO, May 22.**—The Illinois Staats Zeitung publishes the following in reply to the reference to that paper made by Theodore Roosevelt in his speech at Detroit on May 19:

"The Illinois Staats Zeitung was attacked by Theodore Roosevelt in his speech on May 19, 1916, in Detroit, Mich., as printed in several New York City newspapers, in the following words: 'One of the great German newspapers—I cannot call it a German-American newspaper—the Illinois Staats Zeitung, has been engaged in active propaganda on behalf of both German militarism and American pacifism. It applauds and advocates Germany's embarking upon a career of military strength unconditioned by any other consideration and at the same time backs the movement of the extreme pacifists to keep the United States impotent for self-defense.'

"That is false! Even at the risk of being condemned to membership in the Roosevelt Ananias Club of 1911 we must contradict the honorable ex-president of the United States.

"The Illinois Staats Zeitung never endorsed any policy that tended to 'keep the United States impotent for self-defense.' It is a vile falsehood if the colonel really said that the Illinois Staats Zeitung backs any movement for that purpose. We print in the American-Judge-Landis of Chicago is our authority for calling our language the American instead of the English—language, every Sunday the principles of the Illinois Staats Zeitung. One of the planks in that platform of principles is 'the nationalizing of the manufacture of arms and ammunition.'

"Perhaps the colonel sees in that principle the 'move' to keep our country impotent. We don't. We see in it the move to save our taxpayers millions of dollars from the greed of rapacious and dishonest ammunition sellers.

"We have repeatedly stated editorially in both the American and German languages, that we are for preparedness and we explain what sort of preparedness we favor. If the colonel sees a move 'to keep our country impotent against defense' in every form of preparedness except the Roosevelt brand, then we beg to express our satisfaction at being 'with' some of his opponents rather than 'with' him. We favor the Swiss and Australian system of military service. We favor 'preparedness' in the public schools, by means of textbooks written exclusively by American-born citizens upon history and geography, by teaching more of European history and less of English history, by preparing the bodies of our young people through exercises in turning and swimming; by compelling every public school student to learn one European language in addition to the American; by developing an American encyclopedia as our reference work in place of the encyclopedia Britannica which hardly mentions our 'Declaration of Independence'; by nationalizing the manufacture of arms and ammunition for use of our government, by inculcating stronger love for our government by means of laws that would benefit the poorer rather than the richer classes, so-called socializing laws; by compulsory military service for each physically fit male and compulsory hospital training for each physically fit woman, each for a short period during high school and preparatory school courses; by government subsidy given to universities and colleges that will graduate officers for our army and for our navy under United States regulations and control.

"We don't know what a 'German' newspaper printed in the United States looks like. We publish an American newspaper in Chicago; it is printed

partly in the German and partly in the American language. We don't know what Mr. Roosevelt means by a 'German' propaganda. We do not know that we have no connection with the German government, nor with any foreign government, but that we are independent in finances as well as in politics and therefore dare to answer Mr. Roosevelt's attack in a fearless and truthful manner.

"To be sure we praise the German people for their military preparedness. Without it, there would be no Germany today. 'The proof of the pudding is in the eating of it.'

"But we do not advocate the German military system for the United States—at least not now. Were Canada inhabited by double the number of the people in the United States—(Russia possesses twice the population of Germany) and Mexico by two-thirds the population we have (France bears that ratio to Germany) and were both Canada and Mexico 'arming, exercising and training' soldiers and marines in ever increasing proportions; then we would favor a stronger militaristic policy than Canada plus Mexico had adopted.

"If there is any 'moral treason' or any other kind of 'treason' in these doctrines then we are guilty, otherwise not. Roosevelt preaches a kind of preparedness that requires an extraordinary 'propaganda' to keep it from being forgotten by our people for they want naught of a military oligarchy. We modestly know, a sane, moderate, military preparedness and a more thorough educational and physical preparedness.

### NEW SPEAKEASY FOUND.

**WHEELING, May 22.**—Fulton has a new speakeasy. It is located on the National road, not far from Fourth street. According to information the place since its opening has been doing all kinds of business in bottled goods. The speakeasy, it is said, is a side line to another rather prosperous business conducted by the proprietor, and that at almost any time several vehicles may be seen at the curb while the owners are intimated to be enjoying some of the wet goods in the speakeasy.

## BIG FAIR

Of Industries is to Be Held in the City of London Soon after War Ends.

**WINNIPEG, Canada, May 22.**—The provincial authorities in Canada are receiving notice that a gigantic industrial fair will be held in London soon after the end of the war to foster up Great Britain's trade, and all business enterprises of importance in the Dominion are being urged to participate.

Plans for carrying out the idea, which originated in England, have been placed with a body of men to be known as the "Empire Fair Committee." Erection of a huge auditorium, more than three times the size of the Olympia, London's largest hall, which seats 10,000 persons, is one of the steps contemplated by the fair officials.

Several of the British possessions, including Egypt, Australia, New Zealand and South Africa, already have reserved space, according to the letter. It is believed that Canada will join with other countries in making the project a success.

The United States coast survey will make accurate measurements across Florida to determine whether the Gulf of Mexico is higher or lower than the Atlantic ocean.
